Ringier Technology Innovation
Awards-Coatings Industry

21th China Coatings Summit & Expo 2020

May 13-14 | Shanghai·China

Parallel Forum

- Anti-corrosion Coatings Innovation and Development Forum
- Architectural Decoration Coatings Innovation and Development Forum
- Wood Coatings Innovation and Development Forum
- Rail Transit and Automotive Coatings Innovation and Development Forum
- Green Ink and Printing Technology Seminar

Innovation & Creativity, Industrial Upgrades

Sponsors

Media Support

The Asian coatings market is the largest coatings market globally. It has also been growing at the rates above the international average for a number of years due to the rapid economic development of numerous countries in the region. **China is by far the largest coatings market both in Asia and in the world.** Environmental regulations will play an increasingly important role in the Asian coatings market, due to governments trying to achieve sustainable production across the industry chain. The expected results will encompass standardization of the production and business behavior of the companies while putting more stress on transformation along the environmental protection principals, upgrading production lines with eco-friendly technologies, waste control management and seeking green innovations that can be implemented in any areas of the production chain.

The **2020 China Coatings Summit and Expo** will focus on **“Innovation & Creativity, Best practices in Industrial Upgrades”** to discuss technological innovation, success stories, solutions, and process’ improvements. More than 60 keynote speeches will be delivered to more than 1000 delegates, through 4 major sessions during this Summit, titled: industrial anti-corrosion coatings session, architectural decorative coatings, wood coatings, rail transit and automotive coatings.

The “2020 Green Ink and Printing Technology Application Seminar” will be a concurrent event, held during the same dates and will present the latest technologies and solutions for the ink & printing industry. In addition, the annual "Ringier Coatings Industry Technology Innovation Awards Ceremony" will present the industry's latest brilliant achievements both in products and technologies categories.

The conference is rich in content, and the interactive session is also good! Thank you Ringier.

”

Summit Highlight

- **Multiple parallel forums**, learn about domestic and foreign industry regulations, latest technologies and solutions
- **60+ hot topics**, success stories showcasing and innovative technology sharing, grasping market pulse and technology trends
- **1000+ paint industry elites participants**
- **80+ quality solution providers** to give one-stop consultation service for you
- **On-site technology release area**, bringing you innovative products, technologies and applications
- **On-site supply and demand match services** to help you get to know your business partners efficiently
- **Multi-channel joint promotion and reporting**, providing more exposure opportunities

Who will attend

By Industry :

- Coating Manufactures
- Coatings End User
- Coating Equipment Manufactures
- Coatings Raw Material Suppliers
- Others

By Job title :

- GM/VP/Factory Manager
- Technology Director/Manager
- Scientist / R&D Experts / Chemist / Engineer
- Marketing/Sales/Project
- Others

Plenary Session

- Prospects for Development Opportunities in the 2020 Coatings Industry
- Interpretation of relevant environmental regulations issued by the state and recommendations for paint and ink manufacturing companies
- Cross-border thinking to promote product innovation and upgrade
- Cutting-edge technology, related standards, performance testing methods and innovative applications of environmentally friendly coating raw materials
- Innovation and development of the UV coating industry
- Optimize the coating process and reduce production costs
- New ideas and new methods for the development of environmentally friendly functional coatings

Anti-Corrosion Coating Session

- Analysis on the development status and trend of heavy anti-corrosion
- Development of marine antifouling coatings
- New generation anti-corrosion coating
- Development and application of waterborne anti-corrosive thermal insulation coatings
- New application and development trend of environmentally friendly high performance industrial anti-corrosive coatings
- Anti-corrosion technology for key parts of marine facilities
- Development of graphene modified anti-corrosive coatings
- Application prospects of high performance resins in anti-corrosive coatings
- Application and development of coatings preparation technologies
- Application of anti-corrosion coatings additives

Architectural Coatings Session

- Building decoration coating development opportunities
- The opportunities and challenges for recoat market.
- Fireproof coating trends analysis and application in Decoration
- Prefabricated building trends and their influence on coating industry
- Additives and raw material technology innovation
- Color paste selection and compatibility solutions for architectural coating
- Progress in research and development of aging resistance, heat reflection and stain resistance of architectural coatings
- Stability Analysis and Discussion of New Type W/W Multi-Color Coating
- The impact and changes of new green coatings product standards on coatings companies
- Art coatings and coatings technology development and trend leading
- Development trends and application analysis of building decoration coatings raw material
- Development of waterborne floor coatings

Wood Coatings Session

- Application of Waterborne Wood Coatings in Furniture, Doors and Windows, Outdoor Landscape Painting of Different Wood Substrates
- An effective solution for improving the performance of waterborne two-component varnish
- Discussion on stability problems in water-based formulation design
- Research and Development of waterborne UV wood coatings
- The latest development of waterborne UV coating spraying process
- Analysis on the transformation of environmental protection coatings in furniture production base
- Development of new waterborne resins and waterborne additives and their application in wood coatings
- Development and application of waterborne wood coatings matching coatings equipment
- Application of powder coatings in the furniture industry

Automotive Coatings Session

- Automotive colorful coatings trend analysis
- High performance coatings for automotive lightweight and new energy functionalization
- Application of Water-Borne coatings in the automotive industry
- Automotive refinishing market and research and development progress
- UV light curing coatings in the automotive industry
- The role of multifunctional additives in automotive coatings
- Waterborne coatings with new energy vehicles
- Compatibility analysis between coatings and new car body materials
- Application of green coating technology in the automotive and rail transportation industry

上届部分演讲嘉宾

Mr. George Pilcher
The ChemQuest Group
Vice President
**Topic: Transformational Thinking, Innovation, and Creativity:
Stacking the Odds in Favor of Successful Product and Market Development**

Mr. C. Dale Pritchett
Rodman Media, Coatings World magazine
Group Publisher
Topic: The Global Trends in Coatings & Ink Industry and the Suggestions

Mr. Huicheng Liu
COSCO Kansai Paint & Chemicals Co., Ltd.
Assistant General Manager
Topic: Waterborne paint for containers

Mr. Gui Taijiang
Chief Engineer
Marine Chemical Research Institute
Topic: New trends of technical development in coating industry

Mr. Linsen Yuan
The Sherwin Williams Company
Product Manager
Topic: New Generation Solventless Tank Lining Coatings

Mr. Zhengbin Xu
Zhenhua Port Machinery Company
President
Topic: Discussion on Anti-corrosion Coating Mode of Port Machinery Under New Situation

Mr. Deng BenJin
Jotun coatings (Zhangjiagang) Co. Ltd.
Technical Marketing and Training Manager
Topic: Coatings and Application Emission Reduction Source Solution in Heavy Duty Anti-corrosion Industry

Mr. Shaoguo Wen
Shanghai University of Engineering Science
Professor
Topic: Preparation Principle and Application of Water-borne Hybrid Overbranched Anticorrosive Coatings

Mr. Qiu Tong
Shanghai Jianke Technical Assessment of Construction Co., Ltd.
Assistant Chief Engineer
Topic: New Opportunities and Challenges for Coatings in Prefabricated Construction

Mr. Xuanyi Lin
Shanghai Sto Ltd.
Chief Engineer
Topic: Architectural Coatings Present Situation in 2018 and Development Trend in 2019

Mr. Zhongyong Wang
Executive secretary, Ecological Habitat Committee of Architectural Society of China
Vice-president, China Human Settlements Engineering & Materials Institute
Topic: Trend and development status of eco-environmental functional coatings

Ms. Xiaoming Wu
Ningbo Coating and Painting Industry Association
Secretary General
Topic: Adhere to the standardization of the lead promote high-quality development of the coating industry

Client feedback

From the meeting I got a lot of new trends, new technologies, and learned a lot. Best wishes for the Ringier Coating Summit.

”

上届部分演讲嘉宾

Ms. Sandy Chen
EN Strategy
Consulting Director
Topic: Market Research Report for Chinese WB Wood Coating

Mr. Cash Chang
EPnS water base Wood coating
General Manager
Topic: Application case study on waterborne wood coating

Mr. Junwei Zhan
Clivia Paint
Waterborne project engineer
Topic: The reasons and solutions of the whitening of waterborne wood paint

Mr. Jin Li
Shanghai Badese Chemical New Materials Co., LTD
Engineer
Topic: High-end Solid Wood High Transparent Furniture Paint

Mr. Libo Huang
Tongji university
Topic: Intelligent driving with automotive coating technology

Mr. Xuebin Xiang
Senior deputy chief engineer of coating process, Manufacturing center coating process design institute, CHONGQING CHANGAN AUTOMOBILE Co., Ltd
Topic: Research and application of new profile debugging of automobile spraying robot

Mr. Peng Liu
Zhejiang Tansfar Paint Co., Ltd.
Director of Special Coating Research Institute
Topic: A 2K primer for Robot spraying

Mr. Peter Pan
Nipponpaint (China) Ltd. Co.
Senior Pigment Chemist
Topic: Nipponpaint (China) Automotive Coatings Color Trend For 2019-2021

Mr. Guangli Xiu
Professor, School of Resources and Environmental Engineering, East China University of Science and Technology
Topic: VOC Emission Control Policy and Technology in Coatings and Ink Manufacturing Industry

Ms. Miaoting Pan
Shanghai Chemical Monitoring Station for Environment Protection
Assistant of station master
Topic: Progress of compiling technical guide for self-monitoring of pollutant discharge units - manufacture of paint and ink

Mr. Rensi Ming
Ningbo Institute of Materials Technology & Engineering Researcher
Topic: A New Heavy Duty Anticorrosive Coating System with Two-Dimensional Lamellar Structure Regulation

Mr. Qingyi Xie
South China University of Technology
Assistant researcher
Topic: Degradable Self-Polishing Antifouling Coatings (DSPC), A New Generation Technology

Client feedback

Every year, I will participate in the Coatings and printing Inks Conference held by Ringier, and I would like to thanks Ringier for providing such a good platform!

Ringier Events

Connecting industry through information exchange!

Ringier Events

Ringier Events covers the industries of plastics, food, personal care, medicine & healthcare, nonwovens, coatings & ink, automobile, metal, mold & die, package, composite material, and the latest technologies at over 20 high levels technical conferences held each year, and brings key executives responsible for testing, evaluating recommending and purchasing equipment, systems and material on behalf of their companies, quality speakers and representations from sponsors together create a valuable platform where information can be exchanged new business contacts made. Services, including webinars and events, are also Ringier's existing services. Our turn-key service can help you effectively promote your events, arrange additional qualified speakers, manage webinar registrations, and we provide whole set service during the event.
