Pipe and Profile EXTRUSION

Pipe and Profile Extrusion magazine combines the simplicity and familiarity of a printed publication with the additional features of online delivery and digital interactivity. Our simple page-turner interface allows readers to forward links to articles – allowing valuable content to be shared with colleagues and customers – and download PDFs for storage and printing.

The magazine is available free-of-charge online using a standard web browser. Subscribers are notified of each new edition of *Pipe and Profile Extrusion* by email – an important benefit in our post-Covid world of mobile and remote working – with a single click taking them directly to the magazine (our 23,569 email subscribers cover more than 150 countries).

Pipe and Profile Extrusion can also be read on iPad, iPhone and Android-based devices using our free app, which has been downloaded more than 12,797 times from more than 120 countries and is extending our reach into key fast growing markets such as Thailand, India, China and Malaysia.

We also use our @PlasticsWorld Twitter feed to keep readers up to date with the latest plastics industry news and to let them know whenever we publish a new edition of *Pipe and Profile Extrusion* magazine. @PlasticsWorld has a global following of more than 23,400 people and is the most followed plastics industry news feed on **Twitter**.

2023 Rates and Data: Magazines

AMI's magazines are digital magazines for the digital age. They are available free-of-charge online using a standard internet browser and can also be read on the iPad, iPhone and Android-based devices using our free apps or HTML5 browser.

The **online editions** are hosted on the Yudu platform for digital magazines, which means there is no need for readers to download special software or large files. Subscribers are notified of each new edition by email and a simple click of a weblink takes them to the latest magazine. Our user-friendly interface allows them to browse and read the magazine just like a printed product, but with the additional benefits of online delivery and digital interactivity. Readers can easily forward links to articles, allowing them to share each magazine's valuable content with colleagues, suppliers and customers. And they can

download the magazine as a PDF for storage and printing.

The apps for the **iPad, iPhone** and **Android** devices are proving very popular with readers around the world. The dedicated apps have been downloaded more than 71,688 times since their launch in 2012, and more subscribers are signing up every day. Our apps are extending the reach of the magazines beyond their already substantial online readership, providing even more value for advertisers.

We also use our @PlasticsWorld **Twitter** feed to keep our readers up to date with the latest plastics industry news and to let them know whenever we publish a new edition of each magazine. To date, @PlasticsWorld has attracted a global following of more than 23,432 people and is one of the most popular sources of plastics industry information on the social media site.
